

SWISS Federal Office of Civil Aviation

FOCA Target: minimize third-party risk by:

- **Mitigation**
in case of an accident / incident with BPS, use a simple predefined process that covers the needs of all involved stakeholders, third parties (Rescue Teams), other agencies.
- **Exchange Information**
launch an awareness campaign that addresses the needs of stakeholders and third-parties.
- **Communication:**
Publish and adjust the necessary information on the FOCA webpage and in the affected AIP (Aeronautical Information Publication).

Establish appropriate and professional communication and information exchange between the competent national and international authorities and defined agencies in terms of certifications standards (Aircraft Design).

SWISS Federal Office of Civil Aviation

- **Further steps for SWISS FOCA:**
 - Define appropriate and functional defined Checklists
 - Launch “Stay Safe” Campaign on the Internet
 - Update Publication / Information on the FOCA Website and affected AIP
 - Address and discuss the safety deficiencies in the frame of international working groups (Certification Standards)
